

Detail of training programme (Animal Science)

Title of training programme	Venue	Thematic Area	Duration (Days)	Participant (No.)	Month
Farmers and Farm Women training					
Composite fish farming	Off	Composite fish culture	1	25	May
Green fodder production for livestock	Off	Production of livestock feed and fodder	1	25	June
Feed and disease management of goat	Off	Goatry Farming/ Rabbit Management /goat	1	25	July
Balanced Feeding and Health Care in Dairy Animals	Off	Dairy Management	1	25	August
Feed management of poultry	Off	Feed Management	1	25	September
Scientific rearing of pigs	Off	Piggery Management	1	25	October
Vermicompost production from animal waste	Off	Vermi-compost production	1	25	October
Feed production of fishes at village level	Off	Fish feed preparation../ Production of Fish feed	1	25	November
Feed and Disease management of poultry	Off	Poultry management	1	25	December
Disease management through vaccination in livestock	Off	Disease Management	1	25	January
Feed management of pregnant and milch animals	Off	Feed Management	1	25	February
Milk by-product production (curd, paneer, ghee etc)	Off	Production of Quality Animal products	1	25	March
Rural Youth cum Vocational training					
Goat Farming	On	Sheep and goat rearing	5	25	September
Pig Farming	On	Piggery	5	25	December
Vermicomposting and Organic Waste Management for Income Generation	On	Vermi-culture	5	25	January
Extension functionaries training					
Forage and fodder crop cycle For Livestock	On	Livestock feed and fodder production	1	25	August
Disease management in livestock	On	Management in farm animals	1	25	November

Contact Person: Dr. Satish Kumar, SMS (Animal Science)
Mobile no.: 9304603506

Detail of training programme (Plant Protection)

Title of training programme	Venue	Thematic Area	Duration (Days)	Participant (No.)	Month
Farmers and Farm Women training					
Management of viral disease in lady's finger	Off	Integrated disease management	1	25	May
Seed treatment in major Kharif crops	Off	Integrated disease management	1	25	June
Important insect pests of maize and their management	Off	Integrated Pest Management	1	25	July
Important insect pests of paddy and their management	Off	Integrated Pest Management	1	25	August
Important diseases of paddy and their management	Off	Integrated disease management	1	25	September
Management of wilt diseases in solanaceous vegetables	Off	Integrated Pest Management	1	25	October
Late blight disease of potato and their management	Off	Integrated disease management	1	25	November
Bee Keeping	Off	Bee Keeping	1	25	November
Aphid management in mustard	Off	Integrated Pest Management	1	25	December
Pod borer management in pulses	Off	Integrated Pest Management	1	25	January
Insect pests of mango and their management	Off	Integrated Pest Management	1	25	February
Management of insect pests in natural farming.	Off	Integrated Pest Management	1	25	March
Rural Youth cum Vocational training					
Production of organic inputs	On	Production of organic inputs	5	25	September
Mushroom Production	On	Mushroom Production	5	25	November
Extension functionaries training					
IPM of Rice	On	Integrated Pest Management	1	25	August
Importance of bio-pesticides	On	Integrated Pest Management	1	25	November

Contact Person: Dr. Surya Bhushan, SMS (Plant Protection)
Mobile no.: 8084627697

Detail of training programme (Horticulture)

Title of training programme	Venue	Thematic Area	Duration (Days)	Participant (No.)	Month
Farmers and Farm Women training					
Management of newly established mango orchard	Off	Management of young plants/orchards	1	25	May
Nutrient management in mango orchards	Off	Cultivation of fruit	1	25	June
Techniques for nursery raising of solanaceous vegetables	Off	Nursery raising	1	25	July
Production technology of Papaya	Off	Cultivation of fruit	1	25	August
Scientific cultivation of tomato	Off	Production of low volume and high value crops	1	25	August
Scientific Cultivation of marigold	Off	Nursery Management	1	25	September
Cultivation techniques of cole crops	Off	Exotic vegetables like Broccoli	1	25	September
Production and management technology of high value crops	Off	Production of low volume and high value crops	1	25	October
Production technology of Gerbera	Off	Management of potted plants	1	25	October
Scientific cultivation of seed spices	Off	Production and management technology	1	25	November
Package and practices of cultivation of onion	Off	Production and management technology	1	25	December
Scientific cultivation of okra	Off	Production of low volume and high value crops	1	25	February
High density orchard of guava	Off	Layout and Management of orchard	1	25	March
Rural Youth cum Vocational training					
Nursery Management of Vegetables and Flowers	On	Nursery Management of Horticulture Crops	5	25	July
Plant propagation and Nursery Management of Fruit crops	On	Planting Material Production	5	25	November
Extension functionaries training					
Role of micro irrigation in horticultural crops	On	Others (Micro irrigation systems of orchards)	1	25	September
Promotion of Natural farming	On	Others (Natural Farming)	1	25	November

Contact Person: Dr. H. K. Chaurasia, SMS (Horticulture)
Mobile no.: 8084627697

Detail of training programme (Agril. Extension)

Title of training programme	Venue	Thematic Area	Duration (Days)	Participant (No.)	Month
Farmers and Farm Women training					
Method of rain water harvesting	Off	Soil and water conservation	1	25	April
Method of soil sample collection for analysis	Off	Soil and Water testing	1	25	May
Integrated farming system	Off	Integrated farming	1	25	June
Formation & Management of SHGs	Off	Formation & Management of SHGs	1	25	July
Millets production under Natural Farming	Off	Mobilization of social capital	1	25	August
Entrepreneurial Development of Farmers	Off	Entrepreneurial development of farmers/youths	1	25	September
Market linkage of SHGs Produces	Off	Group Dynamics	1	25	October
Formation and management of FPOs	Off	Group dynamics	1	25	November
Techniques of soil and water management	Off	Soil and Water testing	1	25	December
Awareness programme about PM KISAN	Off	Group dynamics	1	25	January
Awareness programme about VB-G RAM G	Off	Group dynamics	1	25	February
Marketing Linkage of FPOs	Off	Group dynamics	1	25	March
Rural Youth cum Vocational training					
Integrated Farming System	On	Integrated Farming System	5	25	September
Natural farming input production technology	On	Production of organic inputs	5	25	October
Extension functionaries training					
Market linkage of Millets produces	On	Group Dynamics and farmers organization	1	25	August
Organic Farming	On	Production and use of Organic Inputs	1	25	October

Contact Person: Dr. Ritesh Dube, SMS (Agril. Extension)
Mobile no.: 9153168194

Detail of training programme (Agronomy)

Title of training programme	Venue	Thematic Area	Duration (Days)	Participant (No.)	Month
Farmers and Farm Women training					
Soil sampling methods and fertilizer recommendation	Off	Integrated Nutrient Management	1	25	April
Resource Conservation Technologies for Sustainable Crop Production	Off	Resource Conservation Technologies	1	25	May
Nursery management of paddy for SRI method	Off	Nursery management	1	25	June
Production technology of millet crops	Off	Integrated crop management	1	25	July
Agronomic practices of seasonal fodder crops	Off	Fodder production	1	25	August
Production technology of rabi maize crop	Off	Integrated crop management	1	25	September
Nutrient management in major oilseeds of rabi season	Off	Integrated crop management	1	25	October
Production technology of rabi pulse crop	Off	Integrated crop management	1	25	November
Integrated nutrient management in cereal crop	Off	Integrated crop management	1	25	December
Weed management in wheat crop	Off	Weed management	1	25	January
Production technology of sugarcane	Off	Integrated crop management	1	25	February
Nutrient management in summer green gram	Off	Integrated crop management	1	25	March
Rural Youth cum Vocational training					
Seed production technology of rabi pulses and oilseeds	On	Seed production	5	25	September
Integrated Farming Systems for Sustainable and Climate- Resilient Livelihoods	On	Integrated Farming	5	25	November
Extension functionaries training					
Major technology of enhancing yield and productivity of major kharif crops	On	Productivity enhancement in field crops	1	25	September
Importance of green and brown manuring for sustainable crop production	On	INM	1	25	November
